Oral and Nasopharynx Pathology

Carol Adair, MD

The following series of cases is presented in power point format. The first slide gives the clinical history and a multiple choice (type K) question (see below for answer options). The second and third slides are microscopic images of the lesion in question. The fourth slide presents the answer to the question. The diagnosis is given on the fifth slide, along with some key points.

Type K Question Format:

Multiple Choice:

A=1,2,3 B=1,3 C=2,4 D=4 E=all
